ABOUT ME

Undergraduate student currently pursuing BSc. (Hons) in Information Technology at the University of Kelaniya. I have basic knowledge in programming and web technologies, with a strong interest in learning new IT skills. I am seeking an IT internship to gain hands-on industry experience, develop my technical abilities, and contribute positively to the organization.

EDUCATION

Undergraduate – BSc. (Hons) in Information Technology (Reading)

2025-2029

Faculty of Science | University of Kelaniya

PROJECTS

Mini Project – Connect Four Game.

- Developed a console-based Connect Four game using C++
- Implemented game logic, player turns, and win condition checks
- Used arrays and conditional statements to control game flow

Technologies Used: c++

Online Book Shop Management System

- Developed an Online Book Shop Management System using Java and MySQL
- Built a user-friendly interface using Java Swing
- Implemented online book purchasing and CRUD operations

Technologies Used: java, javaswing, MySQL

Task Management System

- Developed a responsive full-stack web application for task and project management.
- Built RESTful APIs using Express.js.
- Integrated PostgreSQL (Supabase) for secure data management.
- Deployed the frontend on Vercel and the backend on Render.

Technologies: React.js, Node.js, Express.js, PostgreSQL (Supabase), Git

TECHNICAL SKILLS

- Languages: Java, Python, C++, SQL, JavaScript.
- Web Technologies: HTML, CSS, React.js, Express.js, Node.js
- Databases: MySQL, MongoDB, PostgreSQL (Supabase)
- Developer Tools: Git, GitHub, VS Code, Vercel, Render, AWS
